CERTIFIED MAIL

Mr. Stephen R. Wassersug, Director  
Hazardous Waste Management Division  
U.S. Environmental Protection Agency  
Region III, 6th and Walnut Streets  
Philadelphia, PA 19106

Dear Mr. Wassersug:

Attached is the information requested in your August 13, 1984 letter.

There are no records or data on the amounts or type of hazardous wastes disposed of at the site referred to as the Nitro Dump. Monsanto plant wastes, in addition to wastes from other area plants and the city of Nitro, were taken to this site and burned.

The site referred to as the Monsanto Site began to receive wastes in 1964 and until November 1980, some portion of the wastes taken to this site would be considered hazardous. Since November 1980, no hazardous wastes have been taken to this site. There are no records or data on the amount or type of hazardous wastes taken to this site.

If you have any questions concerning this survey, please contact Keith Miller, Environmental Specialist, at (304) 755-3341.

Sincerely,

  
D. S. Frazer  
Plant Manager
